Range Extender  
For Ring Alarm

## Home security beyond the front door

Ring Video Doorbells and Cameras create a Ring of Security around your entire property.

Ring Alarm is the security system that takes your Ring of Security a step further, giving you another level of protection for your property.

Now, you can arm and disarm your system and monitor your home, all from your phone, tablet or PC.

5. Troubleshooting

## 1. Say hello to your Ring Range Extender.

## 2. Set up your Ring Range Extender in the Ring app.

## Diagram

Prepare to add the range extender

To add devices to your Ring Alarm, it must be disarmed. If your Ring Alarm is armed, please disarm it now.

In the Ring app, tap **Set Up a Device** and find Ring Range Extender in the **Security Devices** menu.

To complete the setup process, follow the in-app instructions.

5/9/19 12:32 PM

### 3. Connect your Ring Range Extender to your Base Station.

#### Scan the QR Code or enter the PIN

The QR Code and PIN can  
be found on the back of  
your device, on the box, or  
on the card in this box.

#### Plug the range extender into a wall outlet

This turns on the device.  
Your Base Station will  
find it.

#### Track the connection progress

The extender's LED ring  
will show the progress.

### 4. Install your Ring Range Extender where you'd like.

#### Place your range extender

Move the range extender  
in between the Base  
Station and a device that's  
hard to reach.
